Pets and animal welfare

If you're struggling to care for your pet or pay for treatment:

The first step is to contact your local vet. They may be able to help with costs or suggest other options.
Find your local vet here > findavet.rcvs.org.uk

Avoid DIY remedies. Don't be tempted to use home remedies or ask people without a professional vet's qualification for help. Human products and medications can be harmful when used on pets.

The following organisations may also be able to help.

PDSA (People's Dispensary for Sick Animals)

Low-cost and free vet care for sick / injured pets depending on your location and benefit status.

0151 480 2288
